

schülke -+

A body wash lotion based on selected skincare substances and gentle surfactants, with particularly good skin tolerance.

esemtan® wash lotion

Our Plus

- universally usable - for the whole body, face and hair
- for all skin types
- pH skin neutral and soap free
- also for sensitive and stressed skin
- with allantoin

Application areas

- for gentle body washes from head to foot
- for showering, partial baths and full baths
- for hand washing with surgical and hygienic hand disinfection

Product Profile

As a result of the balanced mix of the various ingredients, esemtan® washlotion has skin-care properties.

The gentle lather and pleasant fragrance and the delicate opalescent green / blue colour, round off the positive properties of the product.

Allantoin, a substance with anti-irritant properties that occurs widely in the plant world, protects the skin against irritation. Protection and care of the skin are potentiated by emollient substances.

Instructions for use

Hand washing

Before surgical and hygienic hand disinfection with alcoholic rub-in preparations, apply approx. 2 ml esemtan® washlotion via a wall dispenser, add water to form a lather, rinse off and dry well (repeat the process in cases of very heavy soiling).

Partial or full bath

For a full bath add approx. 20 ml esemtan® washlotion as the water runs into the bath; for partial baths use correspondingly smaller amounts.

Washing

Apply esemtan® washlotion to a moist sponge or face-cloth, rub on to the relevant parts of the body, wash and rinse off.

esemtan® wash lotion

Product data

Ingredients:

Aqua, Sodium Laureth Sulfate, Sodium Chloride, Lauryl Glucoside, Allantoin, Glycol Distearate, Disodium Laureth Sulfosuccinate, Stearamide MEA, Cocamide DEA, Phenoxyethanol, Benzoic Acid, Dehydroacetic Acid, Ethylhexylglycerin, Parfum, CI 42090, CI 47005, Sodium Hydroxide, Lactic Acid, Benzyl Salicylate
